

I always say that our relationship with God is as deep as our understanding of God's nature.

I would suggest to anyone thinking about going to a bible college that CBC is the place to go. For me it was exactly what I needed because *growing up I only knew God through what other people had told me and through a wrong understanding of the bible.* I always say that our relationship with God is as deep as our understanding of God's nature. For example no one really wants to know a God that is manipulative and uses us like chess pieces, or a God that is waiting to pounce on our every mistake. Yet this is exactly how I believed God acted in my life - how wrong I was!

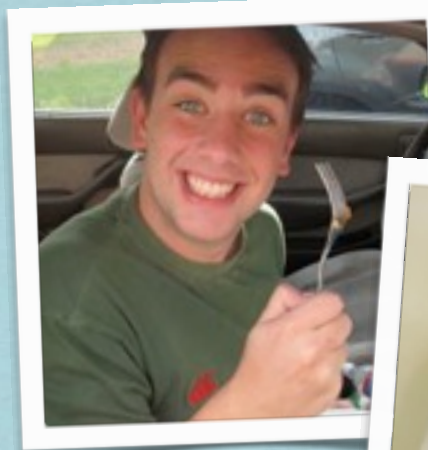

What *Charis Bible College* did for me was it helped educate me not only *theologically but practically*, to gain a true understanding of who God is, what he has done for me and how much he loves me! I learned that God was in Christ reconciling the

world to himself, not holding their sins against them. (2 Corinthians 5:19) I learned that *God doesn't hold my sin and wrong against me now because he's already done that to his son Jesus! That is good news!*

I have had friends who have gone to different bible colleges and all they have gained is a mass of theological knowledge of no relevance to their relationship with God and it has left

them confused. CBC's teaching is practical and relevant. For example, *not only did we learn about the Holy Spirit, but we practiced the gifts he has given us by praying and giving words of encouragement to one another.* There are 2 types of knowing God - theologically through book knowledge or experientially through spending time with him. *After 2 years at CBC I can truly say I have experienced in part the real and true God and I encourage you to do the same!*
